Doing As Eagles Do

April 26th, 2024

Curriculum Corner

In math, we completed Module 6 this week. Module 6 was on decimals. **We completed the End of Module 6 Assessment today. We will be doing test corrections next week!** We will be starting Module 4 next week on angle measurement and plane figures.

In reading, we continued our work on unit 4. This unit is a historical fiction unit. In this unit we have been reading a book called *Number the Stars* to guide instruction. This week students continued F&P testing. Additionally, students practiced different reading skills that we learned earlier this year by completing different readings and responding to comprehension questions. Students also learned about the qualities of a strong interpretation and learned more about themes in the book *Number the Stars*.

In writing, we are working on our informational unit. Students are writing an informational book on a topic of interest. This week students continued drafting on Publisher.

In social studies, we continued our third unit on Washington today. Students learned more about the important industries in Washington state.

We are doing social emotional learning (SEL) every Wednesday. We completed the Second Step SEL curriculum and had no lesson this week.

Dear Parents,

Happy Friday! I am SO proud of this amazing group of learners and all the wonderful work that has been occurring in the classroom.

This week students worked very hard on our End of Module 6 Math Assessment, F&P (reading) Testing, our Informational Writing Final, and our Industries of Washington Project (social studies).

Please ensure that you are sending healthy snacks to school with your student. Many students have been bringing in sugary snacks and candy. At Discovery, to support the overall well-being and concentration of our students, we encourage you to consider providing nutritious snacks for your child to enjoy during school hours.

Interested in Summer Camp focused on STEAM? The Issaquah School District is offering a S.T.E.A.M. (Science, Technology, Engineering, Art and Math) Summer CAMP for current ISD enrolled Kindergarten - 5th grade. General information for camp and signing up is linked [HERE](#).

I hope you all enjoy an amazing weekend! Please let me know if you have any questions.

Thanks so much,
Peter Besbeas
