Doing As Eagles Do

May 10th, 2024

Curriculum Corner

In math, we continued Module 4 this week. Module 4 is on angle measure and plane figures. This week students learned about parallel lines, learned to use a protractor to distinguish angle measure, and completed test corrections for the End of Mod 6 Assessment.

In reading, we completed our final I-Ready Reading Diagnostic. Additionally, students prepped for SBA.

In writing, we completed our final informational book (unit 3). Rubrics will be sent home with students in the coming weeks. Please let me know if you would like me to print your students informational book to send home. As always, all student writing is on Teams under each students personal page.

In social studies, we continued our third unit on Washington today. Students learned more about the important industries in Washington state.

We are doing social emotional learning (SEL) every Wednesday. We completed the Second Step SEL curriculum and had no lesson this week.

Dear Parents,

Happy Friday! We had another amazing week in the classroom. The students have been working very hard!

This week the students completed our final I-Ready Reading Diagnostic. Students also completed their informational writing unit. Furthermore, we completed the first half of our SBA prep.

The SBA is next week! The English Language Arts (ELA) portions of the assessment are scheduled for Thursday, May 16th, and Friday, May 17th. To help our students perform their best, we kindly ask that you provide them with nutritious snacks and a water bottle on these testing days. By offering healthy snacks and hydration, we support our students in maintaining their focus and energy levels throughout the testing sessions.

I hope you all enjoy a wonderful weekend! Please let me know if you have any questions.

Thanks so much,
Peter Besbeas
